

PROTECT YOUR PIPES

PIPES IN THE KITCHEN

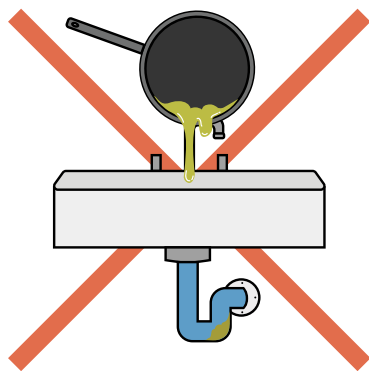

Putting cooking oil and food down the drain can clog your pipes, leading to backups and odor issues in your home.

FOODS THAT CAUSE PROBLEMS:

- | | | |
|------------------------|--------------|--------------|
| + Dairy products | + Butter | + Shortening |
| + Sauces and dressings | + Frying oil | + Meat fats |
| + Cooking oil | + Margarine | + Lard |

WHAT TO DO:

- + Dispose of used cooking oil in the trash.
 1. Pour used cooking oil into a container, like a soup can.
 2. Cover the container with a lid and allow to cool or freeze.
 3. Dispose of the solidified oil in the trash.
- + Limit garbage disposal use. Put food scraps in the trash.
- + Place strainers in your sink to catch food.

PROTECT YOUR PIPES

PIPES IN THE BATHROOM

Don't flush anything that isn't one of the 3 P's:
Pee, Poop and Toilet Paper.

ITEMS THAT CAUSE PROBLEMS:

- + "Flushable" wipes
- + Baby wipes
- + Pet wipes
- + Hair
- + Hygiene products
- + Paper towels
- + Floss

WHAT TO DO:

- + Only flush the 3 P's: Pee, Poop and Toilet Paper.
- + Know that "flushable" wipes are not flushable.
- + Use a trashcan with a bag for wipes and other bathroom trash.
